

CERTIFICATE COURSE IN INDIAN KNOWLEDGE SYSTEM (IKS) (CODE - 800)

Introduction

The Certificate Course in Indian Knowledge System aims to introduce learners to the rich intellectual, cultural, and scientific heritage of India. The course provides an overview of traditional Indian knowledge found in fields such as philosophy, literature, science, mathematics, art, and social thought. It helps students understand the relevance of ancient wisdom in the modern world while promoting appreciation for India's diverse cultural traditions and values. This course encourages holistic learning and develops awareness of India's contribution to global knowledge.

Objectives

This course provides a comprehensive exploration of Indian knowledge systems (IKS), focusing on the historical, philosophical, cultural, and scientific contributions of ancient India. Through various topics and perspectives, this course aims to deepen the understanding of India's rich intellectual and cultural heritage. The course is structured to cover diverse areas, including Sanskrit literature, Indian philosophy, classical languages, education systems, arts, architecture, trade, medicine, yoga, astronomy, mathematics, agriculture, and metallurgy. By examining these aspects, students will gain an appreciation of how IKS has shaped the global knowledge system.

Unique Features

- Interdisciplinary study of Indian philosophy, science, culture, and traditions.
- Focus on ancient Indian texts and traditional knowledge practices.
- Emphasis on the relevance of Indian knowledge in modern society.
- Short-term course designed to promote cultural awareness and holistic learning.

Opportunities

- Opportunities in teaching, research, and cultural studies.
- Useful for careers related to heritage, culture, and education.
- Helps in understanding and promoting India's traditional knowledge globally.
- Provides a foundation for further studies in Indian philosophy, history, and culture.
