

## **Report on Workshop on “ Making Eco friendly Paper bags”**

**Date - 3-09-2018**

**Time – Monday (1:00pm)**

### **A brief Report –**

Paper bags are gaining importance as these bags are purely reusable, recyclable and biodegradable. At the same time it is environment friendly and pose less threat to wild life.

As a special exercise of departmental activity the Workshop on **“Making Eco friendly Paper bags”** was held on 3<sup>rd</sup> Sept, 2018 Which was presided over by the Principal and Asst. Prof. Aarya Thhakkare explained the importance of the eco friendly paper bags and she gave demo on “How to prepare paper bags in short time, it requires less energy for paper bags to be recycled than plastic bags.

Various departments from TMV participated and feedback was also collected by participants about the different ways of making paper bags. The motive behind this positive step is being nature friendly by distributing these paper bags free of cost in different places of the city in future.
