

Dr. Geetali Tilak's visit to the Japan Foundation

An enriching exchange during our Vice Chancellor, Dr. Geetali Tilak's visit to the Japan Foundation. The conversations centred around cultural collaboration, academic exchange, and the promotion of Japanese language and arts were truly enlightening. Discussing opportunities that connect our students with Japan's rich heritage and dynamic global presence highlighted a shared vision for holistic education. This visit marked a valuable step towards nurturing mutual understanding, cross-cultural learning, and globally informed futures.
